TAILORED MEETING SCHEDULE

## meet. connect. do business.

Meet with those working on the most active projects in the UK including: operators of prisons, youth detention centres, police custodial units and customs & immigration facilities, architects, contractors, local authorities, M&E consultants and other senior professionals involved in specification & procurement.

Our forums give our delegates time to focus; away from their day-to-day distractions ensuring better conversations resulting in more memorable and meaningful relationships.

In 2017, we facilitated over 5,000 one-to-one business meetings. It's a powerful endorsement that so many supplier delegates re-book year on year often attending several of our forums.

### **A great opportunity in a sector undergoing transformation**

*The Prison Estate Transformation Programme is investing £1.3bn over four years. In July it was announced that an additional £30m was being made available to stabilise the prison estate. The emphasis is now clearer than ever on delivering facilities that help support rehabilitation as well as bringing existing facilities up to a decent standard. Keeping staff safe is crucial across all custodial environments as well as protecting those who are being detained, many of whom are vulnerable.*
